PROFESSIONAL SUMMARY

Product Solution Engineer at Juspay with experience in merchant onboarding, payment integrations, and production payment systems. Proficient in Java, Python, JavaScript, SQL, REST APIs, and backend systems, with hands-on experience in API debugging, transaction analysis, and cross-functional delivery.

SKILLS

Languages: Java, Python, JavaScript, SQL — **Tools:** Git, GitHub, Postman, VS Code

Integrations: Merchant Onboarding, Payment Integrations, Payment Flows, REST APIs

Production Engineering: API Debugging, RCA, Service Log Analysis — **Core CS:** DBMS, OOP, DSA

EXPERIENCE

Juspay

June 2026 – Present

Product Solution Engineer

Bengaluru, India

- Delivered end-to-end onboarding and production go-live for **10+ international merchants**, validating APIs, payment configurations, and integration readiness across **8+ payment methods**.
- Performed root cause analysis of production payment issues using API tracing, correlating service logs, analyzing transaction lifecycles, and debugging integration flows across distributed payment systems.
- Partnered with engineering, product, and operations teams to resolve integration blockers and improve payment workflows for production reliability.
- Managed UAT, production releases, post-deployment verification, and merchant go-live activities to ensure reliable payment processing in production environments.

Juspay

July 2025 – May 2026

Product Solution Engineer Intern

Bengaluru, India

- Developed core capabilities for **2+** internal AI-powered engineering tools used for production debugging, payment transaction analysis, and system observability, improving debugging efficiency by **30%**.
- Performed root cause analysis of production issues through API tracing, service log correlation, and end-to-end payment transaction analysis across distributed payment services.
- Implemented workflow improvements for internal engineering tools, accelerating production issue investigation and improving engineering productivity.

PROJECTS

InsightCRM | React.js, Node.js, MongoDB, Gemini AI, Tailwind CSS

August 2025

- Developed an AI-powered CRM platform enabling automated marketing campaigns, audience management, and actionable analytics through Gemini AI and scalable REST APIs.

ExamPrep | MongoDB, Express.js, React, Node.js, TypeScript, Vite

April 2025

- Designed and developed a MERN-based learning platform with study management, progress tracking, analytics dashboards, and REST APIs to deliver an interactive and scalable learning experience.

EDUCATION

Noida Institute of Engineering and Technology

Nov 2022 – Jun 2026

Bachelor of Technology in Information Technology **CGPA: 8.70/10**

Greater Noida, India

LEADERSHIP & ACHIEVEMENTS

Technical Lead, Coding Club, NIET • Organized hackathons for 500+ students.

Jan 2023 – Jan 2025

Team Lead, NSUT National Hackathon • Led 4-member team to **Top 5** finish out of 100+ teams.

Nov 2025
